## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16, 31, 46, 47, drawn to a receiver with storage features in an interactive video distribution system, classified in class 725, subclass 134.
  - II. Claims 17-21, 24-30, drawn to access control, classified in class 725, subclass 25.
  - III. Claims 42-45, drawn to billing and fees, classified in class 725, subclass 1.
  - IV. Claims 22- 23, drawn to catalog shopping, classified in class 705, subclass 27.
  - V. Claim 32-41, drawn to electronic fund transferring and payment, classified in class 705, subclass 17.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II, has separate utility such as restricting access, invention III, has separate utility such as processing billing, invention IV has separate utility such as catalog shopping, and invention V has separate utility such as setting fees. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to John Mattingly on October 6, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
